

A frightening trip

A WOMAN ON THE ROAD

Last year I went to a village of Caceres which is called Trujillo to visit a relative. I was travelling on a lonely road by ~~my~~ car with my father. It was getting dark, when suddenly we saw a strange light in ^{the} distance.

We had just stopped in a restaurant to eat something. At first we thought (that) ~~those~~ ^{that} light was another bar. Although in that area there weren't ~~not~~ ^{too many} restaurants. Before we had reached the light it seemed to a white human being ~~body~~. I was too scared to say something. Amazingly, there was a woman walking alone ~~at~~ in the middle of the night and in a ~~part~~ forest. It was ~~the~~ terrifying!

After a while I ~~guessed~~ ^{"Dad,} said: "did you see it?..."
 My father ~~only~~ just nodded. We ~~it~~ ^{have} never ^{spoken} ~~speaking~~ again about that.
 It was one of the ^{worst} ~~most~~ experiences of my life.
