"MONEY IS ESSENTIAL IN OUR LIVES"

Nowadays, we are sick and tired to listen about money. Crisis, Banks which are broken, people who are in debt ... etc. But, is it essential in our lives? As far as I am concerned, I live in a consumer society where ~~(all) the world~~ ^{everybody} turns around money, and that's why I think that currently money is very important.

First of all, if we think why we do some things such as studying, working or getting a job, the answer is easy, in order to get money. It's like a give and take because we work to receive it and then spend it in other activities, for example, doing the shopping, buying clothes, paying purchases, travelling ... Our lives wouldn't be so easy without cash or the famous credit card.

Another reason is that, if money didn't exist, it would be unethical working or studying. The system would stop and we could do away with civilisation. Besides, we wouldn't be eco-friendly because if petrol was free, ~~(all the world)~~ ^{everybody would} pollute much more.

I wish we didn't depend on money, but right now it's essential in our lives if we don't want to be a down and out.

To sum up, we need money, ^{does} ~~exist~~ another alternative?
