"MONEY IS ESSENTIAL IN OUR LIVES"

We live in a world moved by money. I strongly believe that money is a real need in our daily lives.

The main reason is that everyone is used to pay cash or to pay by credit card. It doesn't matter if we are doing the shopping at the supermarket or buying a house, we need money for every purchase. A recent survey has shown that nearly half of population think that changing items as a payment, like our ancestors used to do, has no sense.

Secondly, during history, we have changed currency many times and also we have invented the euro, to make our shopping easier in other countries. This way of paying is a sign of the development of a place. Money is nowadays a way to make a difference between countries, the haves and the have-not, although it might sound cruel.

All in all, if money hadn't been invented, we would have been living for ages in the same old world, that's why, in my opinion, money is essential in our lives.
